

Venkata Naga Sai Yadlapalli

Full Stack Web & Mobile App Developer

✉ venki.y2k3@gmail.com ☎ 7386528787 📍 Hyderabad

PROFESSIONAL SUMMARY

Software Developer with hands-on experience in full stack web and mobile application development using ReactJS, Next.js, Flutter, React Native, NestJS, PHP, and Python. Experienced in developing scalable frontend interfaces, backend APIs using REST and GraphQL, and cross-platform mobile applications. Worked on healthcare, ITSM, event management, and monitoring systems.

TECHNICAL SKILLS

Languages

- Python, JavaScript, PHP

Backend

- NestJS, Flask, Django, Laravel

Databases

- MySQL

Frontend

- ReactJS, Next.js, HTML5, CSS3

Mobile

- Flutter, React Native

APIs & Tools

- REST APIs, GraphQL, Git

PROFESSIONAL EXPERIENCE

Software Developer

Xsilica Software Solutions Pvt. Ltd. ✨

05/2025 – Present
Hyderabad

- Developed web and mobile applications using ReactJS, Next.js, Flutter, React Native, NestJS, Flask, and PHP. • Built scalable backend APIs using REST and GraphQL and integrated them with frontend and mobile applications. • Worked on healthcare, ITSM, event management, and monitoring applications. • Developed responsive frontend interfaces and improved application performance.

PROJECTS

Aahawanam – Event Management Mobile Application

Technologies: Flutter, NestJS, GraphQL

- Contributed to the development of an event management mobile application connecting users with vendors for organizing events and celebrations.
- Developed user-side modules using Flutter and integrated them with backend services built using NestJS and GraphQL APIs.
- Implemented features for browsing and booking event services such as Mehndi, Decoration, Bartender, and Valet Parking.
- Built service booking workflows, theme selection modules, and API integrations for efficient booking management and smooth user experience.

Elite Cafe – Cafe Management Web Application

Technologies: PHP, Blade Template Engine

- Developed a cafe management web application for menu management, online ordering, and table reservations.
- Implemented backend APIs using PHP and frontend pages using Blade templates.
- Built admin modules for managing menu items, orders, reservations, and customer operations.
- Integrated frontend and backend functionalities to ensure smooth system performance and user experience.

ITSM (IT Service Management) – Mobile & Web Application

Technologies: React Native, Next.js, NestJS, GraphQL

- Contributed to the development of an IT Service Management (ITSM) system for managing organizational IT service requests.
- Developed mobile and web application modules using React Native and Next.js integrated with NestJS backend and GraphQL APIs.
- Implemented Service Catalog, Distribution List, and Mailbox request management functionalities.
- Built search, sorting, category filtering, and API integration features to improve service request management and user experience.

System Monitor Application

Technologies: Flask, ReactJS

- Developed a system monitoring application with agent-based architecture to track device activity within an organization.
- Built backend services using Flask and developed dashboard interfaces using ReactJS for monitoring system activity and reports.
- Implemented features for tracking startup/shutdown time, running applications, active processes, and idle time.
- Developed automated screenshot capturing and reporting functionalities to support organizational monitoring and data management.

Sunrise Multispeciality Hospital – Hospital Management System

Technologies: ReactJS, PHP

- Contributed to the development of a Hospital Management System for managing patient records, appointments, billing, pharmacy, and doctor workflows.
- Developed Doctor Dashboard modules using ReactJS and integrated them with PHP backend APIs.
- Implemented modules including Doctor Dashboard, Finance, Pharmacy, Billing, Reception, and OT Booking systems.
- Built functionalities for patient management, surgery scheduling, medical test referrals, and seamless workflow between different doctor roles.

CERTIFICATES

Python Full Stack Development – VCube Software Solutions

- Completed training in Python Full Stack Development covering Python, Django, HTML, CSS, JavaScript, and database integration.
- Gained hands-on experience in frontend and backend web application development.
- Developed practical knowledge in building responsive web applications and implementing backend logic.

EDUCATION

Bachelor's Of Technology In Mechanical Engineering

2021 – 2024

Velagapudi Ramakrishna Siddhartha Engineering College

CGPA: 7.34

Diploma In Mechanical Engineering

2018 – 2021

Dhanekula Institute Of Engineering & Technology

CGPA : 8.09

LANGUAGES

- **English** – Professional Working Proficiency
- **Telugu** – Native Proficiency

INTERESTS

- Learning new technologies
- Listening to music
- Content creation on social media
